LIGHT A LANTERN  
SOUTH AFRICA

We specialise in supplying innovative and decorative lantern products that are not only distinctive, but environmentally and budget-friendly. Lanterns are the perfect way to spice up a party, wedding or corporate event and we have several options to suit every occasion.

## Sky Lanterns

Sky lanterns are unique, longer lasting and safer than fireworks. They rise to heights of over 300 meters and travel for kilometres. The result is one of the most magical and breathtaking sights you, your family and guests will ever see.

## Round Paper Lanterns

Chinese lanterns can be used to decorate your venue by hanging them from the ceiling or outside from trees for your pre-drinks with your table seating plans attached. Lanterns are available in various colours and sizes.

## Candle Lanterns

Perfect for outdoor events, lighting up a pathway, table or pool area, candle lanterns need only a simple tea light to create a beautiful effect. Lanterns are made of white non inflammable biodegradable paper and available with round perforations.

## Water Lanterns

Water lanterns float on the surface of the water and can be used to add a warm glow to a water feature, pond, or swimming pool. Each water lantern needs only a single tea light to create the visual effect.

All of Light a Lantern's lanterns are made from non-flammable and biodegradable paper. Each lantern order comes with release and safety guidelines and sky lanterns include two pens to write special messages on the lanterns.

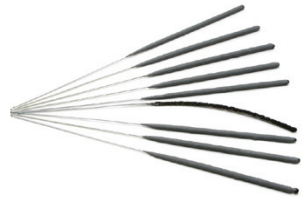

## Parasols

Summer brings with it hot and sunny days. If your event is outside, parasols are the perfect way to provide your guests with shade and protect them from the sun. Parasols can also be hung from trees or positioned inside a marquee/venue. Spread over a large area, they create a stunning visual effect.

## Sparklers

Add some sparkle to your wedding reception by giving your guests a wedding sparkler. Sparklers are perfect for evening weddings and can be used in different ways. Ask your guests to light them when you open the dance floor with that first song or when you finally leave the wedding for the start of your honeymoon!

## LED Tea Lights

LED tea lights are **battery operated** and last over 40 hours. With **NO flame or smoke**, these tea lights are the perfect, safe alternative to candles. If your event is outdoors and you are worried about wind or bush fires, then opt for LED battery-operated tea lights with your lantern products.

## Long Burning Tea Lights

Burn for 5 to 6 hours.
